Dear University of Tampa Cybersecurity Competitor,

Congratulations on an outstanding performance in the National Cyber League competition. Finishing 54th overall out of more than 4,200 teams nationwide — placing in the 99th percentile — is an extraordinary achievement and one worth celebrating.

Competing against thousands of students from every state, representing hundreds of colleges, speaks to both the difficulty of the challenge and the level of skill required to excel. This result reflects your teamwork, preparation, and the ability to perform under pressure — qualities that matter far beyond any single competition.

You cybersecurity students are our future defenders, and events such as the National Cyber League Competition allow for utilization of your academic knowledge, with hands on technical execution, and build confidence while growing your skills.

Thank you for representing the university with excellence and for setting such a strong example of dedication and talent.
Congratulations again on a truly impressive accomplishment.

With appreciation,

A handwritten signature in blue ink that reads "Ashley Moody". The signature is fluid and cursive, with a large initial "A" and "M".
